BRITISH WELDING JOURNAL

INDEX

Volume 8 1961

ADDIE, J.W.
biographical note, 189
mild steel electrodes for contact welding, 135
ADHESION TEST for metallized surfaces, 161
AGEING, effect on mechanical properties, 278
ALLEN, J.S., welded Maidenhead Bridge, 304
ALLOY STEEL
low: cracking prevention, 540; medium-carbon, weldability and transformation, 93; welds, hot cracking in, 526
ALUMINIUM
butt joints, edge preparation for, 220
chemical equipment, design, 237
cleaning, 218
cracking, control of, 229
distortion, 245
ductility at low temperatures, 243
edge preparation, 218, 245
effect on cracking, 535
fusion-welded joints, X-ray inspection, 87s
fusion-welded pressure vessels, specification, 207
inert-gas metal-arc welding, 216, 245
inspection and tests, 211
oxide inclusions in, 231
oxide removal, 218
plastic deformation at low stresses, 242
porosity control, 230
porosity in welds, 314
pressure welding by rolling at elevated temperatures, 377
radiographic exposure techniques, 256
radiography of welds, 208, 253
spray coatings, adhesion test, 161
tungsten-argonarc welding practice, 245
weldability, 310
welded structures, design, 199
welding defects, 229
welding handbook (book review), 206
welding methods and applications, 425
welds: defects and their repair, 249; factors influencing properties of, 227; heat-affected zone, 231; hydrogen in, 314; mechanical properties, 235; properties at sub-zero temperatures, 236; standards of quality, 225
ALUMINIUM ALLOYS
cracking sensitivity, 251
fatigue strength of butt joints, 402
filler metal composition for, 568
fusion-welded joints, X-ray inspection, 87s
fusion-welded pressure vessels, specification, 207
inspection and tests, 211
radiography of welds, 208, 253
stud welding, 116
welding methods and applications, 425
ALUMINIUM-MAGNESIUM ALLOYS, filler compositions for, 571
ALUMINIUM-MAGNESIUM-SILICON ALLOYS, filler compositions for, 573
ALUMINIUM-MAGNESIUM-ZINC ALLOYS, filler compositions for, 360, 573
ALUMINIUM-MANGANESE ALLOYS, filler compositions for, 571
ARC STABILISER, for Al welding, 248
ARC WELDING
argonarc, of sheet, hot-cracking test on, 514
automatic, 141, 159
automatic tungsten-arc, of heat exchangers, 141
current sources, characteristics of, 29s
inert-gas metal-arc: A/CO_2 shielded, of mild steel, 151; of Al, 216, 245; without preheat, of Cu, 353
inert-gas shielded, in Russia, 21
open-arc, 15
practice, 513
report of commission, 18s, 91s
Russia, 19
self-adjusting, A-N mixtures for Cu, 349
special-processes, report of Commission, 44s
submerged-arc, 15
tungsten - argonarc, of Al, 245
ARGON/CO_2 mixtures for metal-arc welding, 151
ARMCO IRON, pressure welding by rolling at elevated temperatures, 378
ARSENIC, effect on cracking, 534
AUGLAND, B., biographical note, 504
AUGLAND, B., and CHRISTENSEN, N., notch toughness of submerged-arc weld deposits, 473
AUSTENITIC-FERRITIC transition joints, 469
AUSTENITIC STEEL
cracking in heat-affected zone during heat treatment, 579
cracking in heat-affected zone during welding, 575
pipe, 468
rotors, 464
AUTOMATIC WELDING, developments, 149; see also ARC WELDING

BAGNALL, J.W., obituary, 368
BAILEY, J.C., and ELDRIDGE, G.W., factors influencing properties of welds in aluminium, 227
BAINBRIDGE, C.G., practical welding repairs (book review), 187
BAKER, B.H., biographical note, 284
BAKER, B.H., CREVIS, N., LUCEY, J.A., and LUNAU, F.W., mild steel welding with argon/CO_2 mixtures, 151
BAKER, R.G., see Tremlett, H.F.; Younger, R.N.
BANKS, S.R., biographical note, 284
BANKS, S.R., and SMITH, R.E., design considerations for welded aluminium, 199
BARTLE, P.M., metallurgist in fabrication, 524
BELL, G.R., recent developments in brazing, 166
BEYNER, welded Maidenhead Bridge, 308

BIGGS, W.D., brittle fracture of steel (book review), 92
BIRKHEAD, M., metallurgist in fabrication, 522
BLACKBURN, R.E., obituary, 554
BOILERS, report of Commission, 43s, 101s
BOLTON, W.
biographical note, 69
residual stress distribution in and around spot welds, 57
BONDY, O., welded Maidenhead Bridge, 307
BOON, E.F., biographical note, 285
BOON, E.F., and VAN BERKEL, F.C.A.A., design of chemical equipment in aluminium, 237
BORLAND, J.C.
effect of oxygen and nitrogen on properties of welds in unalloyed titanium 61
hot cracking in mild and low alloy steel welds, 526
see also Younger, R.N.
BOWRING, F.B., Lloyd's Register requirements in testing of welders, 1
BOYD, G.M.
metallurgical concomitants of residual stress, 343
welded Maidenhead Bridge, 308
BRAITHWAITE, R.G.
metallurgist in fabrication, 522
welded Maidenhead Bridge, 309
BRAZING, developments in, 166
BRESLER, B., and LIN, T.Y., design of steel structures (book review), 412
BRIDGE, Maidenhead, 291
BRITISH WELDING RESEARCH ASSOCIATION
staff appointments, 193
wire speed measurement, 590
BRITTLE FRACTURE
mild steel pressure vessels, 561
pressure vessels, 32s
service, co-operative study of, 67s
steel, 92 (book review)
strength of welded steel plates, 259, 412
strengths of welded and notched 3 in. thick plate, 389
BROZZO, P., results of torsion relaxation tests, 79s
BURGESS, N.T.
automatic tungsten-arc welding of heat exchangers, 141
metallurgist in fabrication, 523
BUSSE, F.
biographical note, 189
foil seam welding, 123
BUTT JOINTS
Al, edge preparation for, 220
fatigue strength of, in H15 Alloy welded with Cusil 73 filler wire, 402
BUTT WELDING
steam pipes, 466
tube in dissimilar metals, 466
BUTT WELDS
Al-alloy, fatigue strength of, 402
in plate, stress relief of, 485

CAPEL, L.
aluminium welding practice, 245
biographical note, 285
CAPPER, welded Maidenhead Bridge, 308
CARBON, effect on cracking, 532
CARBON DIOXIDE, see Argon/CO_2
CHADWICK, A., obituary, 503
CHEMICAL EQUIPMENT, Al, design of, 237
CHRISTENSEN, N., see Augland, B.
CHROMIUM, effect on cracking, 537
CLACK, V.W., training the welding technician, 51s
CLEANING, Al, 218
CLEWS, K.J., inert - gas - shielded metal-arc welding of thick copper without preheat, 353
COATING(S) metallized, adhesion test, 161
plastic, division of Institute, 388, 414, 457, 502
see also METAL SPRAYING; SPRAYING
COLTON, W.J., metallurgist in fabrication, 523
COMBUSTION, iron-oxygen, in gas cutting, 79
CONDENSERS, welding, 149
CONNECTING ROD, fracture of, 83a
CONTACT WELDING, mild-steel electrodes for, 135
CONTINUOUS COOLING TRANSFORMATION, characteristics determination, 95
COPPER
effect on cracking, 537
inert-gas shielded metal-arc welding without preheat, 353
self-adjusting arc welding, A-N mixtures for, 349
welding methods and applications, 420
COPPER ALLOYS, welding methods and applications, 420
CORROSION FATIGUE, in oil engines, 13
COTTERELL, B., stress relief of butt welds in rectangular plates by local heating, 485
CRACKING
Al, control of, 229
arrest edge effect, 274
arrestors, in ship construction, 45
effect of elements, 531
fatigue, of main deck of warship, 5s
filler materials for Al-Zn-Mg alloys, 362
heat-affected zone, in austenitic steels during welding, 575
heat-affected zone, in austenitic steels during heat treatment, 579
hot, in mild and low alloy steel welds, 526
intergranular precipitation and, 585
iron-binary systems, 529
mechanism of, 578
oxide films in spot welding, 411
prevention, 586
prevention in mild and alloy steel, 539, 540
sensitivity of Al alloys, 251
stress-corrosion, 26
theory, 526
see also FRACTURE
CRACKING TESTS
BWRA, 575, 579
hot, on sheet during argonarc welding, 514
wedge, 93
CRACKNELL, A., brittle fracture of mild steel pressure vessels, 561
CRANKSHAFT, web fracture, 85s
CREVIS, N., biographical note, 284
see also BAKER, B.H.
CUSIL 73 FILLER WIRE, H15 alloy welded with, fatigue strength of butt joints in, 402
CURRENT SOURCES, for arc welding and cutting, 29s
CUTTING
characteristics of current sources for, 29s
gas, iron-oxygen combustion in, 79
oxygen, research report, 86
Russia, 22

DAVY, C.H., Vice President, 414
DERRY, L.W., see Johnston, R.D.
DESIGN
and fabrication for welding, fundamentals of 49s
of steel structures (book review), 412
DINSDALE, W.O., and NEWMAN, R.P., fatigue strength of butt joints in H15 alloy welded with Cusil-73, 402
DISSIMILAR METALS, butt welding of tubes in, 466
DISTORTION
Al, 245
in oil engines, 13
DIXON, H.E., metallurgist in fabrication, 520, 525
DOCUMENTATION, report of Commission, 23s, 96s
DORRAT, J.A.
biographical note, 31
welding in production of marine oil engines, 10
DUCTILITY, weld metal, influence of storage time, 172

EASTWOOD, F.A., obituary, 503
EDGE PREPARATION
Al, 218, 245
Al butt joints, 220
EDUCATION AND TRAINING, 416, 558
Institute of Welding committee, 385

EDUCATION AND TRAINING (cont.)
post-graduate course, 258
report of Commission, 48s
welding technician, 51s
welding technology, conference, 384
see also SCHOOL OF WELDING TECHNOLOGY
ELDRIDGE, G.W., see Bailey, J.C.
ELECTRO-SLAG WELDING, in Russia, 21
ELECTRODES
effect on brittle-fracture strength of plate, 271
mild steel, for contact welding, 135
wire speed measurement, 590
EXPANSION BELLOWS, welding, 471

FABRICATION for welding, design and, fundamentals of, 49s
FATIGUE
corrosion, in oil engines, 13
cracking of main deck of warship, 5s
failure: in bottom plating, 70s; bulkhead stringers, 8s; hoist, 4s; IIW enquiry on, 16s; reports on, 1s, 70z, 83s
fracture: axle of trailer, 13s; drive shaft of rolling mill reduction gear, 14s
oil engines, 12
ship construction, 8s
strength of butt joints in H15 Alloy welded with Cusil 73 filler wire, 402
strength of fillet welded joints in mild steel, influence of artificially induced residual stress on, 541
FATIGUE TESTING, report of Commission, 46s, 103s
FEED-WATER HEATERS
automatic tungsten-arc welding of, 141
welded steel tubes, 470
FERRITIC STEEL, pipe, 468
FILLER MATERIALS, for Al-Zn-Mg alloys, 360
FILLER METAL
for Al, 235
for Al alloys, 568
FILLER WIRE, Cusil 73, fatigue strength of butt joints in H15 alloy welded with, 402
FILLET JOINTS, in mild steel, influence of artificially induced residual stress on fatigue strength, 541
FILMS, oxide, cracking in spot welding, 411
FITCH, I.C., metallurgist in fabrication, 523
FLAME SPRAYING, see Spraying
FLEET, C., obituary, 554
FOIL, seam welding, 123
FOWLER, R.J., welded Maidenhead Bridge, 303
FRACTURE
brittle, see BRITTLE FRACTURE
fatigue, see FATIGUE
lorry frame longitudinal member, 77s
ship construction, 44
welded water tanks of locomotive tenders, 75s
see also CRACKING
FREEMAN, welded Maidenhead Bridge, 308
FRICTION WELDING, in Russia, 22
FUCHS, E.
metallurgist in fabrication, 525
quality in welding, 4
FUSION JOINTS, X-ray inspection, 87s

GAS CUTTING, see Cutting
GAS WELDING
report of Commission, 17s
Russia, 22
GLINER, B.M., determination of the mechanical and technological properties of metals (book review), 436
GRAELY, J.W., obituary, 368
GRAHAM, W., obituary, 503
GRAIN GROWTH
mild-steel weld metal, 453
refinement and, 344
GREENWOOD, J.A.
biographical note, 336
temperatures in spot welding, 316
GURNEY, T.R., influence of artificially induced residual stresses on fatigue strength of load carrying fillet welded joints in mild steel, 541

HEAT-AFFECTED ZONE
Al welds, 231
cracking in austenitic steels during heat treatment, 579
cracking in, of austenitic steels during welding, 575
metallography, 580, 583
HEAT-EXCHANGER TUBES, welding fins to, 472
HEAT-EXCHANGERS, automatic tungsten arc welding, 141
HEAT-RESISTING STEELS, torsion relaxation tests, 79s
HEAT-TREATMENT, heat-affected zone cracking in austenitic steels, 579
HEATERS, feed-water, automatic tungsten-arc welding of, 141
HINDE, J., metallurgist in fabrication, 522
HOIST, fatigue failure, 4s
HOPE, W.F., obituary, 31
HOULDCROFT, P.T., investigation of filler materials for welding Al-Zn-Mg alloys, 360
HULLS, welded, structural and metallurgical requirements, 43
HUNTER, N.M., welded hulls, 49
HUXLEY, H.V., determination of hot crack susceptibility of steel sheet during argonarc welding, 514
HYDROGEN
Al welds, 314
control in weld metal, 94
HYGIENE, see SAFETY AND HEALTH

INCLUSIONS, oxide, in Al, 231
INGLIS, N.P., and TAYLOR, E.A., welding in non-ferrous field, 419
INSPECTION AND TESTING
Al and Al-alloy welds, 253
Al and Al-alloys, 211
oil engines, 17
quality control, 315
welds, C.E.G.B. research, 150
